Baltimore North

2004 Greenspring Avenue
Timonium, Maryland, 21093

Hotel Reservations: (410) 252-7373
MAA Room Block Until October 1st

CONVENTION DETAILS

The Maryland Academy of Audiology offers its members the highest quality continuing education experiences from nationally known speakers. Each year, keynote speakers and break out sessions at the convention cover a wide range of topics providing audiologists with updates to current research, technology, and clinical practices. The convention program is designed each year to showcase information in the field of audiology that is relevant for all clinicians, regardless of years of experience or practice setting.

Early Bird Sessions

The Early Bird Catches the Worm - earn extra CEUs! Join us before the keynote speakers each morning of the convention for research and technology reports from prominent manufacturers and exhibitors.

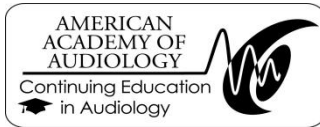

Silent Auction Fundraiser Event

This year's silent auction promises to be a success. A variety of items are available for bidding. All proceeds go to MAAPAC. For further information and/or donations, please contact: Sofie Roller at sofieaudiology@gmail.com.

CONTINUING EDUCATION

Towson University is approved by the American Academy of Audiology to offer Academy CEUs for this activity. The program is worth a maximum of 1.2 CEUs. Academy approval of this continuing education activity does not imply endorsement of course content, specific products, or clinical procedures. – See more at:

<http://www.audiology.org/development/continuingeducation/ceprovider/Pages/proceduresforprogramapproval.aspx#sthash.ySbgx1PO.dpuf>

APPROVED PROVIDER

Towson University, Department of Audiology, Speech-Language Pathology and Deaf Studies is approved by the Continuing Education Board of the American Speech-Language-Hearing Association (ASHA) to provide continuing education activities in speech-language pathology and audiology. See course information for number of ASHA CEUs, instructional level and content area. ASHA CE Provider approval does not imply endorsement of course content, specific products or clinical procedures.

This course is offered for up to 1.2 ASHA CEUs (Intermediate level, Professional area).

KEYNOTE SPEAKERS

Kathryn Dowd, Au.D.

Dr. Kathy Dowd, AuD received her undergraduate BA in French Education from Spalding University, MEd in Audiology from University of Louisville and AuD from Salus University. In the last few years Dr. Kathy Dowd has worked to raise the awareness of chronic disease and ototoxic medications and the co-morbid impact on hearing loss and risk of falls. Her work on this emerging issue has focused on diabetes educators, state agencies for chronic disease, hearing loss and fall prevention, as well as federal agencies such as Centers for Disease Control and Healthy People. Her background over the past 40 years is varied: educational audiology at the school system and state levels, as well as private practice in ENT and proprietary clinics. Dr. Dowd is presently the executive director of The Audiology Project, a nonprofit organization teaming with national audiology professional organizations to define a medical management model of audiological care for diabetes and other chronic and infectious diseases. She has formed state cohorts in many states to help disseminate this important information and to form state and local inter-professional collaborative teams in diabetes care.

Richard E. Gans, Ph.D.

Founder and executive director of The American Institute of Balance, one of the largest balance centers in the U.S.A. Dr. Gans received his Ph.D. from The Ohio State University in Auditory-Vestibular Physiology. For over 20 years has been a leader in the development of vestibular evaluation and rehabilitation techniques, including tests of oscillopsia and postural stability as well as BPPV treatment. He has presented or published over 150 programs and papers worldwide in the area of equilibrium disorders. He is the author of 8 textbook chapters and texts ranging from diagnostic vestibular testing, vestibular rehabilitation, BPPV treatments and pediatric vestibular evaluation. Thieme Medical Publishers will publish his upcoming textbook, Evaluation and Management of Balance Disorders in Children and Adults. His most current research is in the areas of pediatrics, migraine and psychiatric aspects of dizziness. Dr. Gans served as the President of the American Academy of Audiology (2004-2005) and continues to be active in professional and governmental issues. He is an adjunct professor at Nova Southeastern University and the University of South Florida.

Presenter's financial disclosures available at
